Publication information: Omega (ISSN 0305-0483). For 2008, volume 36 is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (http://www.elsevier.com/locate/omega). Further information is available on this journal and other Elsevier products through Elsevier's website: (http://www.elsevier.com). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.
Author enquiries: For enquiries relating to the submission of articles (including electronic submission where available) please visit this journal's homepage at http://www.elsevier.com/locate/omega. You can track accepted articles and set up e-mail alerts to inform you of when an article's status has changed. Also accessible from here is information on copyright, frequently asked questions and more.
Contact details for questions arising after acceptance of an article, especially those relating to proofs, will be provided by the publisher.
Published 6 issues/annum in February, April, June, August, October and December

CONTENTS OF VOLUME 36

Number 1

Special Issue Section: Papers presented at the INFORMS conference in Atlanta, October 2003

Edward H. Kaplan	1	Adventures in policy modeling! Operations research in the community and beyond
T. Govindaraj	10	Characterizing performance in socio-technical systems: A modeling framework in the domain of nuclear power
Eva Regnier	22	Doing something about the weather
Christos Alexopoulos, David Goldsman, John Fontanesi, David Kopald, James R. Wilson	33	Modeling patient arrivals in community clinics

General Papers

Xiaoting Wang, Evangelos Triantaphyllou	45	Ranking irregularities when evaluating alternatives by using some ELECTRE methods
G. Premkumar, Anol Bhattacherjee	64	Explaining information technology usage: A test of competing models
Ezgi Aktar Demirtas, Özden Üstün	76	An integrated multiobjective decision making process for supplier selection and order allocation
Martin Rudberg, B. Martin West	91	Global operations strategy: Coordinating manufacturing networks
Petros Theodorou, Giannoula Florou	107	Manufacturing strategies and financial performance—The effect of advanced information technology: CAD/CAM systems
Jayavel Sounderpandian, Sameer Prasad, Manu Madan	122	Supplies from developing countries: Optimal order quantities under loss risks
William R. King, Peter V. Marks Jr.	131	Motivating knowledge sharing through a knowledge management system
A.S. Camanho, R.G. Dyson	147	A generalisation of the Farrell cost efficiency measure applicable to non-fully competitive settings
	163	Acknowledgement

Number 2

Special Issue on Knowledge Management and Organizational Learning

William R. King, T. Rachel Chung, Mark H. Haney	167	Knowledge Management and Organizational Learning

Andrea Fosfuri, Josep A. Tribó	173	Exploring the antecedents of potential absorptive capacity and its impact on innovation performance
Chin-Chun Hsu, Arun Pereira	188	Internationalization and performance: The moderating effects of organizational learning
Birgit Renzl	206	Trust in management and knowledge sharing: The mediating effects of fear and knowledge documentation
M.N. Ravishankar, Shan L. Pan	221	The influence of organizational identification on organizational knowledge management (KM)
Byounggu Choi, Simon K. Poon, Joseph G. Davis	235	Effects of knowledge management strategy on organizational performance: A complementarity theory-based approach
Mohamed Khalifa, Vanessa Liu	252	Semantic network representation of computer-mediated discussions: Conceptual facilitation form and knowledge acquisition
Ai Ling Chua, Shan L. Pan	267	Knowledge transfer and organizational learning in IS offshore sourcing
Annemette Kjærgaard, Karlheinz Kautz	282	A process model of establishing knowledge management: Insights from a longitudinal field study
Shao-Chi Chang, Sheng-Syan Chen, Jung-Ho Lai	298	The effect of alliance experience and intellectual capital on the value creation of international strategic alliances

General Papers

Necmi K. Avkiran, Terry Rowlands	317	How to better identify the true managerial performance: State of the art using DEA
Fabrizio Erbetta, Luca Rappuoli	325	Optimal scale in the Italian gas distribution industry using data envelopment analysis

Number 3

Special Issue on Multiple Criteria Decision Making for Engineering

Margaret M. Wiecek, Matthias Ehrgott, Georges Fadel, José Rui Figueira	337	Multiple criteria decision making for engineering
L. Berrah, G. Mauris, J. Montmain	340	Monitoring the improvement of an overall industrial performance based on a Choquet integral aggregation
Tommi Tervonen, Henri Hakonen, Risto Lahdelma	352	Elevator planning with stochastic multicriteria acceptability analysis
Yuh-Wen Chen, Chi-Hwang Wang, Sain-Ju Lin	363	A multi-objective geographic information system for route selection of nuclear waste transport
Ye Chen, D. Marc Kilgour, Keith W. Hipel	373	A case-based distance method for screening in multiple-criteria decision aid

Malcolm J. Beynon, Peter Wells	384	The lean improvement of the chemical emissions of motor vehicles based on preference ranking: A PROMETHEE uncertainty analysis
Carlos F. Simões Gomes, Kátia R.A. Nunes, Lucia Helena Xavier, Rosangela Cardoso, Rogerio Valle	395	Multicriteria decision making applied to waste recycling in Brazil
Rupesh Kumar Pati, Prem Vrat, Pradeep Kumar	405	A goal programming model for paper recycling system
Dominique Bollinger, Jacques Pictet	418	Multiple criteria decision analysis of treatment and land-filling technologies for waste incineration residues
Nerija Banaitiene, Audrius Banaitis, Arturas Kaklauskas, Edmundas Kazimieras Zavadskas	429	Evaluating the life cycle of a building: A multivariant and multiple criteria approach
Carlos A. Bana e Costa, Carlos S. Oliveira, Victor Vieira	442	Prioritization of bridges and tunnels in earthquake risk mitigation using multicriteria decision analysis: Application to Lisbon
Włodzimierz Ogryczak, Adam Wierzbicki, Marcin Milewski	451	A multi-criteria approach to fair and efficient bandwidth allocation
Ana Barcus, Gilberto Montibeller	464	Supporting the allocation of software development work in distributed teams with multi-criteria decision analysis

General Papers

Moshe Givon, Abraham Grosfeld-Nir	477	Using partially observed Markov processes to select optimal termination time of TV shows
William R. King, Paulo Roberto Flor	486	The development of global IT infrastructure

Number 4

Special Issue on Logistics: New Perspectives and Challenges

Angappa Gunasekaran, T.C. Edwin Cheng	505	Special Issue On Logistics: New Perspectives and Challenges
Ozden Ustun, Ezgi Aktar Demirtas	509	An integrated multi-objective decision-making process for multi-period lot-sizing with supplier selection
Changsu Kim, Kyung Hoon Yang, Jaekyung Kim	522	A strategy for third-party logistics systems: A case analysis using the blue ocean strategy
Samir K. Srivastava	535	Network design for reverse logistics
Angappa Gunasekaran, Kee-hung Lai, T.C. Edwin Cheng	549	Responsive supply chain: A competitive strategy in a networked economy

Tsan-Ming Choi, Duan Li, Houmin Yan, Chun-Hung Chiu	565	Channel coordination in supply chains with agents having mean-variance objectives
Qinghua Zhu, Joseph Sarkis, James J. Cordeiro, Kee-Hung Lai	577	Firm-level correlates of emergent green supply chain management practices in the Chinese context
P.H. Ketikidis, S.C.L. Koh, N. Dimitriadis, A. Gunasekaran, M. Kehajova	592	The use of information systems for logistics and supply chain management in South East Europe: Current status and future direction
Jie Yang, Jinjun Wang, Christina W.Y. Wong, Kee-Hung Lai	600	Relational stability and alliance performance in supply chain
Venkata Reddy Muppani (Muppant), Gajendra Kumar Adil	609	Efficient formation of storage classes for warehouse storage location assignment: A simulated annealing approach
Ming-Jong Yao, Weng-Ming Chu	619	A genetic algorithm for determining optimal replenishment cycles to minimize maximum warehouse space requirements

General Papers

M. Bulent Durmusoglu, Osman Kulak	633	A methodology for the design of office cells using axiomatic design principles
Chiang Kao, Hsi-Tai Hung	653	Efficiency analysis of university departments: An empirical study

Number 5

Wing S. Chow, Christian N. Madu, Chu-Hua Kuei, Min H. Lu, Chinho Lin, Hojung Tseng	665	Supply chain management in the US and Taiwan: An empirical study
Jennifer Blackhurst, Tong (Teresa) Wu, Christopher W. Craighead	680	A systematic approach for supply chain conflict detection with a hierarchical Petri Net extension
Zhongsheng Hua, Sijie Li	697	Impacts of demand uncertainty on retailer's dominance and manufacturer-retailer supply chain cooperation
Nicole Adler, Adi Raveh	715	Presenting DEA graphically
Sonia, M.C. Puri	730	Two-stage time minimizing assignment problem
Tiaojun Xiao, Xiangtong Qi	741	Price competition, cost and demand disruptions and coordination of a supply chain with one manufacturer and two competing retailers
Mónica García Melón, Pablo Aragonés Beltran, M. Carmen González Cruz	754	An AHP-based evaluation procedure for Innovative Educational Projects: A face-to-face vs. computer-mediated case study
Agis Papadopoulos, Avraam Karagiannidis	766	Application of the multi-criteria analysis method Electre III for the optimisation of decentralised energy systems

JIAN LI, SHOUYANG WANG, T.C. EDWIN CHENG	777	Analysis of postponement strategy by EPQ-based models with planned backorders
DINESH A. MIRCHANDANI, ALBERT L. LEDERER	789	The impact of autonomy on information systems planning effectiveness
F.J. ARCELUS, SATYENDRA KUMAR, G. SRINIVASAN	808	Evaluating manufacturer's buyback policies in a single-period two-echelon framework under price-dependent stochastic demand
RODNEY MCADAM, DENIS LEONARD, JOAN HENDERSON, SHIRLEY-ANN HAZLETT	825	A grounded theory research approach to building and testing TQM theory in operations management
DONG-QING YAO, XIAOHANG YUE, JOHN LIU	838	Vertical cost information sharing in a supply chain with value-adding retailers
ZHEJUN GONG, SUN HU	852	An economic evaluation model of product mix flexibility
DING DING, JIAN CHEN	865	Coordinating a three level supply chain with flexible return policies
CHARU CHANDRA, JĀNIS GRABIS	877	Inventory management with variable lead-time dependent procurement cost
JEN-SHIANG CHEN	888	Optimization models for the tool change scheduling problem
HAREL EILAT, BOAZ GOLANY, AVRAHAM SHTUB	895	R&D project evaluation: An integrated DEA and balanced scorecard approach
KRZYSZTOF KOWALSKI, BENJAMIN LEV	913	On step fixed-charge transportation problem
NASER NIKANDISH	918	Letter to the editor

Number 6

A Special Issue Dedicated to the 2008 Beijing Olympic Games

JOHN WANG, RUILIANG YAN, KIMBERLY HOLLISTER, DAN ZHU	919	A historic review of management science research in China
YONGJUN LI, LIANG LIANG, YAO CHEN, HIROSHI MORITA	933	Models for measuring and benchmarking olympics achievements
BIN JIANG, GILLES REINHARDT, SCOTT T. YOUNG	941	BOCOG's outsourcing contracts: The vendor's perspective
WEI MENG, DAQUN ZHANG, LI QI, WENBIN LIU	950	Two-level DEA approaches in research evaluation
CHIANG KAO	958	A linear formulation of the two-level DEA model
JIANGHUA WU, XIN ZHAI, ZHIMIN HUANG	963	Incentives for information sharing in duopoly with capacity constraints

KEY WORD INDEX

Absorptive capacity 173
Adjustable prices 147
AHP 754
Allocation 730
Analytic network process 509
